

Environmental Policy

- We have recycling programmes in place for food waste, cooking oil, toner cartridges and glass
- Guests are requested to only change the towels that are necessary and to reuse where possible during their stay
- We purchase recycled paper for stationary wherever possible
- Sensor lighting used in staff only areas ensuring no lights are left on unnecessarily
- Eco and natural products are used for cleaning where possible
- 98% of bulbs are energy efficient
- We have switched to air conditioning in the rooms, therefore only the occupied rooms are heated except in extreme cold weather
- Our toilets are fitted with save a flush bags which reduce the volume of water used for toilet flushing
- We encourage guests to use public transport by ensuring we have a stock of bus time tables and our staff are aware of the routes
- Emails are not printed unless absolutely necessary, we have switched from fax to email for most communication
- We have switched from plastic straws and stirrers to paper and wood in the bar
